DATA COLLECTING AND DATA REQUIREMENTS

NOTE: this document is subject to change without notice. © 2024 ITF, Inc.

1. **TESTS:** The following tests are required for all data collected by the ITF system:

- 1.1. Data Collection:** The ITF system will collect data from all data sources.
- 1.2. Data Storage:** The ITF system will store data in a secure, encrypted format.
- 1.3. Data Access:** The ITF system will allow access to data by authorized personnel.
- 1.4. Data Retention:** The ITF system will retain data for a period of 90 days.
- 1.5. Data Archiving:** The ITF system will archive data for a period of 90 days.
- 1.6. Data Backup:** The ITF system will back up data for a period of 90 days.
- 1.7. Data Recovery:** The ITF system will recover data for a period of 90 days.
- 1.8. Data Security:** The ITF system will ensure data is secure and protected.
- 1.9. Data Privacy:** The ITF system will ensure data is private and confidential.
- 1.10. Data Integrity:** The ITF system will ensure data is accurate and reliable.
- 1.11. Data Availability:** The ITF system will ensure data is available when needed.
- 1.12. Data Performance:** The ITF system will ensure data is processed quickly and efficiently.
- 1.13. Data Scalability:** The ITF system will ensure data can grow without issues.
- 1.14. Data Flexibility:** The ITF system will ensure data can be used in different ways.
- 1.15. Data Interoperability:** The ITF system will ensure data can work with other systems.
- 1.16. Data Compatibility:** The ITF system will ensure data can work with different devices.
- 1.17. Data Portability:** The ITF system will ensure data can be moved easily.
- 1.18. Data Reliability:** The ITF system will ensure data is trustworthy.
- 1.19. Data Consistency:** The ITF system will ensure data is the same everywhere.
- 1.20. Data Accuracy:** The ITF system will ensure data is correct.
- 1.21. Data Precision:** The ITF system will ensure data is detailed.
- 1.22. Data Completeness:** The ITF system will ensure data has everything needed.
- 1.23. Data Timeliness:** The ITF system will ensure data is up to date.
- 1.24. Data Freshness:** The ITF system will ensure data is recent.
- 1.25. Data Currency:** The ITF system will ensure data is current.
- 1.26. Data Relevance:** The ITF system will ensure data is useful.
- 1.27. Data Value:** The ITF system will ensure data is worth having.
- 1.28. Data Quality:** The ITF system will ensure data is good.
- 1.29. Data Health:** The ITF system will ensure data is in good shape.
- 1.30. Data Status:** The ITF system will ensure data is in the right state.
- 1.31. Data Condition:** The ITF system will ensure data is in good shape.
- 1.32. Data State:** The ITF system will ensure data is in the right state.
- 1.33. Data Mode:** The ITF system will ensure data is in the right state.
- 1.34. Data Phase:** The ITF system will ensure data is in the right state.
- 1.35. Data Stage:** The ITF system will ensure data is in the right state.
- 1.36. Data Step:** The ITF system will ensure data is in the right state.
- 1.37. Data Point:** The ITF system will ensure data is in the right state.
- 1.38. Data Item:** The ITF system will ensure data is in the right state.
- 1.39. Data Element:** The ITF system will ensure data is in the right state.
- 1.40. Data Component:** The ITF system will ensure data is in the right state.
- 1.41. Data Part:** The ITF system will ensure data is in the right state.
- 1.42. Data Piece:** The ITF system will ensure data is in the right state.
- 1.43. Data Bit:** The ITF system will ensure data is in the right state.
- 1.44. Data Byte:** The ITF system will ensure data is in the right state.
- 1.45. Data Word:** The ITF system will ensure data is in the right state.
- 1.46. Data Field:** The ITF system will ensure data is in the right state.
- 1.47. Data Record:** The ITF system will ensure data is in the right state.
- 1.48. Data Entry:** The ITF system will ensure data is in the right state.
- 1.49. Data Line:** The ITF system will ensure data is in the right state.
- 1.50. Data Row:** The ITF system will ensure data is in the right state.
- 1.51. Data Column:** The ITF system will ensure data is in the right state.
- 1.52. Data Table:** The ITF system will ensure data is in the right state.
- 1.53. Data View:** The ITF system will ensure data is in the right state.
- 1.54. Data Query:** The ITF system will ensure data is in the right state.
- 1.55. Data Report:** The ITF system will ensure data is in the right state.
- 1.56. Data Document:** The ITF system will ensure data is in the right state.
- 1.57. Data File:** The ITF system will ensure data is in the right state.
- 1.58. Data Folder:** The ITF system will ensure data is in the right state.
- 1.59. Data Drive:** The ITF system will ensure data is in the right state.
- 1.60. Data Network:** The ITF system will ensure data is in the right state.
- 1.61. Data Server:** The ITF system will ensure data is in the right state.
- 1.62. Data Client:** The ITF system will ensure data is in the right state.
- 1.63. Data User:** The ITF system will ensure data is in the right state.
- 1.64. Data Admin:** The ITF system will ensure data is in the right state.
- 1.65. Data Guest:** The ITF system will ensure data is in the right state.
- 1.66. Data Visitor:** The ITF system will ensure data is in the right state.
- 1.67. Data Member:** The ITF system will ensure data is in the right state.
- 1.68. Data Partner:** The ITF system will ensure data is in the right state.
- 1.69. Data Supplier:** The ITF system will ensure data is in the right state.
- 1.70. Data Customer:** The ITF system will ensure data is in the right state.
- 1.71. Data Vendor:** The ITF system will ensure data is in the right state.
- 1.72. Data Provider:** The ITF system will ensure data is in the right state.
- 1.73. Data Distributor:** The ITF system will ensure data is in the right state.
- 1.74. Data Retailer:** The ITF system will ensure data is in the right state.
- 1.75. Data Wholesaler:** The ITF system will ensure data is in the right state.
- 1.76. Data Manufacturer:** The ITF system will ensure data is in the right state.
- 1.77. Data Designer:** The ITF system will ensure data is in the right state.
- 1.78. Data Engineer:** The ITF system will ensure data is in the right state.
- 1.79. Data Scientist:** The ITF system will ensure data is in the right state.
- 1.80. Data Analyst:** The ITF system will ensure data is in the right state.
- 1.81. Data Developer:** The ITF system will ensure data is in the right state.
- 1.82. Data Tester:** The ITF system will ensure data is in the right state.
- 1.83. Data QA:** The ITF system will ensure data is in the right state.
- 1.84. Data Support:** The ITF system will ensure data is in the right state.
- 1.85. Data Help:** The ITF system will ensure data is in the right state.
- 1.86. Data Service:** The ITF system will ensure data is in the right state.
- 1.87. Data Product:** The ITF system will ensure data is in the right state.
- 1.88. Data Solution:** The ITF system will ensure data is in the right state.
- 1.89. Data Platform:** The ITF system will ensure data is in the right state.
- 1.90. Data Framework:** The ITF system will ensure data is in the right state.
- 1.91. Data Library:** The ITF system will ensure data is in the right state.
- 1.92. Data Repository:** The ITF system will ensure data is in the right state.
- 1.93. Data Database:** The ITF system will ensure data is in the right state.
- 1.94. Data System:** The ITF system will ensure data is in the right state.
- 1.95. Data Environment:** The ITF system will ensure data is in the right state.
- 1.96. Data Ecosystem:** The ITF system will ensure data is in the right state.
- 1.97. Data Landscape:** The ITF system will ensure data is in the right state.
- 1.98. Data Space:** The ITF system will ensure data is in the right state.
- 1.99. Data Sphere:** The ITF system will ensure data is in the right state.
- 1.100. Data Universe:** The ITF system will ensure data is in the right state.

2. **TESTS:** The following tests are required for all data collected by the ITF system:

- 2.1. Data Collection:** The ITF system will collect data from all data sources.
- 2.2. Data Storage:** The ITF system will store data in a secure, encrypted format.
- 2.3. Data Access:** The ITF system will allow access to data by authorized personnel.
- 2.4. Data Retention:** The ITF system will retain data for a period of 90 days.
- 2.5. Data Archiving:** The ITF system will archive data for a period of 90 days.
- 2.6. Data Backup:** The ITF system will back up data for a period of 90 days.
- 2.7. Data Recovery:** The ITF system will recover data for a period of 90 days.
- 2.8. Data Security:** The ITF system will ensure data is secure and protected.
- 2.9. Data Privacy:** The ITF system will ensure data is private and confidential.
- 2.10. Data Integrity:** The ITF system will ensure data is accurate and reliable.
- 2.11. Data Availability:** The ITF system will ensure data is available when needed.
- 2.12. Data Performance:** The ITF system will ensure data is processed quickly and efficiently.
- 2.13. Data Scalability:** The ITF system will ensure data can grow without issues.
- 2.14. Data Flexibility:** The ITF system will ensure data can be used in different ways.
- 2.15. Data Interoperability:** The ITF system will ensure data can work with other systems.
- 2.16. Data Compatibility:** The ITF system will ensure data can work with different devices.
- 2.17. Data Portability:** The ITF system will ensure data can be moved easily.
- 2.18. Data Reliability:** The ITF system will ensure data is trustworthy.
- 2.19. Data Consistency:** The ITF system will ensure data is the same everywhere.
- 2.20. Data Accuracy:** The ITF system will ensure data is correct.
- 2.21. Data Precision:** The ITF system will ensure data is detailed.
- 2.22. Data Completeness:** The ITF system will ensure data has everything needed.
- 2.23. Data Timeliness:** The ITF system will ensure data is up to date.
- 2.24. Data Freshness:** The ITF system will ensure data is recent.
- 2.25. Data Currency:** The ITF system will ensure data is current.
- 2.26. Data Relevance:** The ITF system will ensure data is useful.
- 2.27. Data Value:** The ITF system will ensure data is worth having.
- 2.28. Data Quality:** The ITF system will ensure data is good.
- 2.29. Data Health:** The ITF system will ensure data is in good shape.
- 2.30. Data Status:** The ITF system will ensure data is in the right state.
- 2.31.**

COVID Check point

Controllo giornaliero e autocertificazione

ITF RETURN TO INTERNATIONAL TENNIS PROTOCOLS DAILY SCREENING AND SELF-DECLARATIONS

Note: this protocol is subject to change. Last amended – 1 March 2021.

Precautions must be taken to reduce the risk of transmission of Covid-19 at ITF tournaments, including Davis Cup and Billie Jean King Cup ("Tournaments"). One element of this is to check whether participants have any of the main Covid-19 symptoms. All participants should have their temperature checked using an infra-red thermometer, and be asked the questions below on a daily basis prior to entering the Tournament venue.

THE TABLE BELOW MUST BE COMPLETED FOR ALL PARTICIPANTS DAILY

	Result	
	Under 38°C	38°C and above
Part 1 – Temperature screen		
Part 2 – Self-declaration questions		
Do you have any of the following symptoms of Covid-19?		
Fever (38°C and above).	No	Yes
New or persistent cough.	No	Yes
A change or loss in your senses of taste or smell.	No	Yes
Fatigue	No	Yes
Cold-like symptoms.	No	Yes
Congestion or runny nose.	No	Yes
Sore throat.	No	Yes
Have you in the past 14 days been diagnosed with Covid-19 or had any of the above symptoms of Covid-19?	No	Yes
Have you in the past 14 days been in close contact* with anyone who has Covid-19 or Covid-19 symptoms?	No	Yes

**Close contact refers to: being face-to-face within 1 metre for a total of at least 15 minutes; direct physical contact; living in or sharing the same household or household-like setting (e.g. hotel room, apartment or hostel).*

Only those participants who have a measured temperature of below 38°C and who answer 'no' to ALL of the self-declaration questions are permitted on-site. Any participant who has a measured temperature of 38°C or answers 'yes' to any of the questions must not be permitted on-site. The decision to deny access is final and cannot be appealed.

Records of attendance on-site will be retained by the ITF, and will be shared with Tournament staff for monitoring access to the tournament site during the Tournament period only and otherwise as required by law. Records will be kept securely and retained only for as long as is necessary for the ITF to manage the risk of Covid-19 at ITF Tournaments and events. For more information about how and why the ITF collects, processes and stores your personal data in response to Covid-19, please see the ITF's Covid-19 Privacy Notice, which is available on the ITF website at www.itftennis.com.
